

Freedom Convoy and MORE! THE GREAT AWAKENING

Hello everyone!

A historic event of unprecedented magnitude is taking place in our beautiful country and is expanding worldwide. Thousands of truckers in Australia, Brazil, France and in most European countries are apparently organizing to emulate Canadian truckers. The movement has become global and irreversible.

Independent reporting live from Ottawa this Friday - 6 minutes - the truck horns keep sounding - the OTTAWA BLOCKADE has begun!

https://www.facebook.com/watch/live/?ref=watch_permalink&v=644204220248681

The Freedom Convoy had HUGE support in Ontario! We love the support out here and we're happy to see that you're not going to take it anymore!! 27 January 2022

<https://youtu.be/zSMEa2Ox2LE>

Throughout this week now drawing to a close, news of the growing scale of popular support for the initiative of the Canadian truckers who will arrive in Ottawa this Saturday is like a surging wave that keeps growing as the hours go by. No Quebec or Canadian media can now dare to knowingly ignore what is happening (as they have systematically done for the dozens of very large demonstrations that have taken place for more than a year), although they continue to minimize its importance and political commentators continue to spit their venom on this act of bravery against the established order – which millions of Canadians have come to understand is no longer serving the common good, but the interests of a world elite straight out of hell, as lawyer Reiner Fuellmich liked to point out last Sunday in Brussels during a speech shortly after the demonstration interrupted by the police forces deployed to repress the worldwide freedom movement which, for the umpteenth time, expressed itself there.

Of course, all those beings who try to perpetuate the narrative of fear and passive obedience to the tyrannical decisions of a state that no longer serves its citizens (*but has it ever really served it?*) are themselves victims of the global anti-human propaganda they helped create. The injunction to *forgive them because they don't know what they are doing* is more relevant than ever. It is unconditional love and gratitude for their contribution to creating

the conditions for our collective awakening that we must keep in our hearts for them, whatever happens over the next few days.

This is not about bringing down Justin Trudeau's government as some in the media pretend to those who still give them the slightest credibility. It's about freeing ourselves from the grip of fear and from those who use it to enslave us. This is about raising ourselves beyond the baseness and crimes against humanity that have been committed, to celebrate our rediscovered soul sovereignty, and our warm and generous human brotherhood which throughout the last two years of collective trials shone with a thousand lights to show what souls are capable of when given the opportunity to show what majestic wood they are made of.

Let us support with our thoughts of benevolence, gentleness, harmony, peace and Love our brothers and sisters who, from across Canada and especially in our national capital, are taking a stand to say: Enough is enough. *WE SET OURSELVES FREE!*

INVITATION TO SEND THOUGHTS OF PEACE, CALM, WISDOM...

WE HAVE HAD ENOUGH of draconian measures

**TRUCKERS also carry our message
to the Canadian capital - FOR FREEDOM!**

The FREEDOM CONVOY, first initiated by a small team of truckers in Alberta supported by their families and friends, has taken on unprecedented proportions across Canada and is even becoming a model in various countries which are organizing similar convoys. We are talking about 50,000 truckers expected in Ottawa on Saturday and who have decided to stay there until the Trudeau government backs down on its health mandates and frees us from them. A large number of truckers from the United States are also on their way to join them.

Even if we don't hear about it through the official voices of communication, a great movement of solidarity is currently unfolding to support the truckers. Across the country, people are donating money to truckers to help pay for gas, living expenses, accommodations; others are preparing food and supplies to take them along from the road; farmers cleared their fields to accommodate the trucks; others opened their houses to accommodate them, so that they could take a shower, etc. Others stand on the side of the road with signs, encouragement during the passage of the Convoy which go through various roads in Canada and are scheduled to arrive at a common point in Ottawa on Saturday.

In all the social networks that participate in the Convoy, there is a constant reminder to live this movement in solidarity and in a peaceful way. Troublemakers may appear, others might be hired as such. Giving in to this violence is a trap in which it is crucial not to fall so as not to annihilate the desired goal.

So that the truckers do not give in to the pressure of violence and remain peaceful, so that the people of Ottawa are patient, so that the rulers quickly reverse course and abandon liberticidal measures, let us unite, send them our best thoughts in a great current of Peace, Light, Brotherly Love, Respect in order to rediscover our noble and democratic values.

Here are excerpts from a press release from the organizers of this event

Any statements indicating that we are "separatists" or "terrorists" in any way are categorically false and an attempt to defame this movement.

Given the magnitude of our movement and the massive support we receive from around the world, we can no longer promise that all Canadians will not be disturbed by our convoy. We are sincerely sorry for this and we will do our best to limit the disruption in your lives. We want Canadians to remember that we fight for everyone's freedom.

The time has come to remind our politicians that they work for the people of Canada and not the other way around. We ask for your love, patience and support so that all Canadians can unite around the value of freedom!

Our goal remains the same: to ask the Government of Canada to repeal its cross-border tracing passport/phone app and ANY Covid-19 vaccination mandate.

Again, we want to reaffirm the short and reasonable list of our demands which are:

1. That the federal and provincial governments put an end to the vaccine passport and all other obligations of the vaccine tracing program or the inter-Canada passport system.
2. Termination of the Covid vaccination mandate and respect for the rights of those who wish to remain unvaccinated.
3. End the divisive rhetoric attacking Canadians who disagree with government mandates.
4. That the limitation of debate through coercive measures in order to censor those who have divergent or erroneous opinions cease.

For the first time in generations, we are witnessing the union of Canadians from Alberta to the Eastern provinces, Ontario, the Maritimes, First Nations Communities with our brothers and sisters from Quebec who have suffered some of the most drastic measures over the past year.

This is an opportunity for all of us to come together, regardless of our differences, and do what it takes to ensure that our freedoms are protected now and for generations to come.

Try not to cry as you read the message from this FREEDOM CONVOY trucker supporting Canadians in -30C weather and ask yourself what you can do as an individual or as a business.

Justyn Luke Kendze

Hello everyone.

We arrived in Thunder Bay today. I find it hard to find the words to express the momentum of this convoy. The convoy is 100 km long and growing all

the time. The support people show is overwhelming. Arriving in Winnipeg yesterday was quite emotional, our comm radios went pretty quiet because no one could find words to express how we felt. There were people crowded on either side of the streets. Parked cars and people for miles and miles around the city. The horns never stopped honking! On all four lanes out of Winnipeg. We ended up riding 5-20 mph for hours and hours. People had campfires in the ditches, fireworks, a sprayer with railings with a sign with "Thank you" on the railings. Crane trucks with their boom raised with signs, flashing lights and flags. The shoulders of the four lanes crowded with people and cars. Overpasses crowded with people. Tons of families of little kids all bundled up. Everyone was jumping, dancing, waving signs, flags and flashlights. All in minus 30 C. Seeing how happy the children are, their smiles sometimes make you a little emotional. This is how Canada is supposed to be. This morning, going to Ontario, the support is incredible. Alleys, crossroads, small towns, the same things are happening. Constant speeding up and slowing down for groups of people.

When we got to Thunder Bay, they had plowed a large area. Tents erected, big fires and an insane amount of food. Beef on bread, spaghetti, sandwiches, coffee, donuts and so on. They brought crates of windshield washer fluid for everyone. Very "Humbling" how nice everyone is. That's what it feels like to be free. I felt normal for once, not lonely like I have for the past two years. Thanks for all the support it's really appreciated!! THANK YOU!!

Freedom Convoy 2022 in Solidarity with the Truck Drivers: What Canada Needs Is the "Political Quarantine" of Justin Trudeau

<https://www.globalresearch.ca/the-freedom-convoy-in-solidarity-with-the-truck-drivers-what-canadas-needs-is-the-political-quarantine-of-justin-trudeau/5768218>

A mass movement against the Covid mandate is unfolding coast to coast across Canada in solidarity with cross-border truck drivers. Tens of thousands of people will be joining the truck drivers in Ottawa. According to Justin Trudeau, unvaccinated truck drivers "may pose a risk of transmitting COVID-19 to the general public". What nonsense. Truck drivers for the most part stay in their truck, perform administrative duties and supervise loading and unloading. They deliver the commodities and have limited contact with people. All cross-border truckers will "need to be vaccinated in order to avoid a 14-day quarantine", says Justin Trudeau. **Has Trudeau been Vaccinated?** Is it relevant to the Freedom Convoy 2022 in solidarity with the truck drivers? The Prime Minister demands that the truck drivers be vaccinated. Has Justin been vaccinated? ***Check it out [HERE](#) and decide for yourself: There are indications, yet to be fully confirmed, that Prime Minister Trudeau has not been vaccinated.***

Translation: In this exclusive debriefing, we again received the German lawyer Reiner Fuellmich who tell us about the progress of the work undertaken by the Corona Committee. Co-founded with his colleague, Viviana Fisher, with the intention of shedding light on the realities of the Covid-19 pandemic, his conclusion following a series of interviews with more than 100 leading experts around the world, is without appeal : there is no

pandemic, only a false pandemic of positive cases, made possible by untimely screening using RT-PCR tests, diverted from their original function, and unreliable. By creating an armada of patients who ignore each other, the politicians at the head of Western states, with the support of the mainstream media, have thus been able to meet the essential condition for instilling in populations the belief that it was necessary to inject an experimental, harmful and dangerous substance to protect oneself from a virus which, all considered, is no more dangerous than the flu.

Le dernier signataire survivant de la Charte poursuit en justice le Canada pour son imposition de la vaccination aux voyageurs - **The last surviving Charter signatory sues Canada for imposing travel vaccinations**

<https://www.pouruneécologie.com/2022/01/le-dernier-signataire-survivant-de-la.html>

Excerpts translated:

The Justice Center for Constitutional Freedoms today filed a lawsuit in federal court seeking to overturn the federal government's requirement for Covid-19 vaccines for air travelers. The lawsuit is on behalf of several Canadians across Canada whose freedoms guaranteed by the Charter of Rights have been violated. On October 30, 2021, the federal government announced that anyone traveling by plane, train, or ship must be fully vaccinated. Mandatory travel vaccinations have prevented approximately 6 million unvaccinated Canadians (15% of the Canadian population) from traveling within Canada and preventing them from flying outside of Canada. Some of the Canadians involved in the lawsuit cannot travel to help sick loved ones, get to work, visit family and friends, take vacations abroad and live ordinary lives.

The lead plaintiff in this case is the former Premier of Newfoundland, the Honorable A. Brian Peckford (opposite). Mr Peckford, pictured, is the only surviving drafter and signatory 40 years after the enactment of the 1982 Constitution and Charter of Rights and Freedoms. "It is becoming increasingly clear that being vaccinated does not prevent people from catching Covid and does not prevent them from spreading it," says the former Prime Minister. "The government hasn't demonstrated that the policy makes flying safer — it's just discriminatory," he notes. "When I heard Prime Minister Trudeau calling the unvaccinated 'racists', 'misogynists', 'anti-science' and 'extremists' and his reverie 'do we tolerate these people?' it became clear that he was divisive and furthering his vendetta against a specific group of Canadians — this goes completely against the democratic and Canadian values that I love in this country," adds Peckford.

Horowitz: Whistleblowers share DOD medical data that blows vaccine safety debate wide open

<https://www.theblaze.com/op-ed/horowitz-whistleblowers-share-dod-medical-data-that-blows-vaccine-safety-debate-wide-open>

Data, transparency, and surveillance. That is what has been missing from the greatest experiment on humans of all time throughout this pandemic. Now, military medical whistleblowers have come forward with what they claim is perhaps the most accurate and revealing data set on vaccine safety one could possibly find.

... On Monday, during Sen. Ron Johnson's five-hour hearing on a "COVID-19: Second Opinion," Ohio attorney Thomas Renz, who has been representing clients suing the vaccine mandates, presented DOD medical billing data from the Defense Medical Epidemiology Database (DMED) that paints a shockingly disturbing picture of the health of our service members in 2021.

... In a declaration under penalty of perjury that Renz plans to use in federal court, Drs. Samuel Sigoloff, Peter Chambers, and Theresa Long — three military doctors — revealed that there has been a **300% increase in DMED codes registered for miscarriages in the military in 2021 over the five-year average**. The five-year average was 1,499 codes for miscarriages per year. During the first 10 months of 2021, it was 4,182. As Renz explained to me in an interview with TheBlaze, these doctors queried the numbers for hundreds of codes from 2016 through 2020 to establish a baseline five-year average. These codes were generally for ailments and injuries that medical literature has established as being potential adverse effects of the vaccines.

Aside from the spike in miscarriage diagnoses (ICD code O03 for spontaneous abortions), there was an almost **300% increase in cancer diagnoses** (from a five-year average of 38,700 per year to 114,645 in the first 11 months of 2021). **There was also a 1,000% increase in diagnosis codes for neurological issues, which increased from a baseline average of 82,000 to 863,000!** Some other numbers he did not mention at the hearing but gave to me in the interview are the following:

- myocardial infarction – 269% increase
- Bell's palsy – 291% increase
- congenital malformations (for children of military personnel) – 156% increase
- female infertility – 471%
- increase pulmonary embolisms – 467% increase

All these numbers are among the ambulatory visits because those are where the vast number of diagnoses in the military occur. However, Renz did say the increases were indicated in the hospitalized patients as well. I have seen one of the sworn declarations from one of the military doctors, and it states as follows, *"It is my professional opinion that the major increases incidences of the above discussed instances of miscarriages, cancers, and disease were due to COVID-19 'vaccinations.'"*

Connecting the Dots Between Covid, Climate Change and the Great Reset

<https://ubiverse.org/posts/connecting-the-dots-between-covid-climate-change-and-the-great-reset>

... "Disaster capitalism" is diabolically ingenious – it creates a disaster, then offers (today read "forces") an even more disastrous solution, from which it reaps sky-rocketing profits and consolidates even more power. And the ["Great Reset" in particular -- the quintessence of disaster capitalism](#) -- is using both the Corona crisis and the climate crisis masterfully in this way. In both cases, it is the ultra-wealthy capitalist class itself that has engineered the crisis (Covid, climate) -- and then proffered even more pernicious solutions, rushing in as the saviours in the midst of the destruction, chaos and confusion they themselves have sown.

In the case of Covid, this meant (as has been increasingly revealed over the last two years) releasing a bio-engineered, lab-created virus, and then rushing in with devastating lockdowns, vaccines, vaccine passports and a whole new digital infrastructure of ubiquitous social control. Now, in 2022, they will increasingly turn their focus to the climate crisis – another crisis they themselves have caused by their own rampant greed over decades -- using it as a further pretext to consolidate their authoritarian regime, with further lockdowns, austerities, and a crowning Central Banking Digital Currency takeover -- [the introduction of an AI-based Chinese-style social credit system of total surveillance and control](#) by which our bank accounts can be cut off if we do not comply with their dictates.

Just as the Corona pandemic was engineered as a vehicle for this massive restructuring of society – the most monumental transfer of wealth and power to the elites at the top that has ever been perpetrated in human history – the climate crisis will be used as a pretext for the same (especially as more people begin to tire of the Covid agenda, and need a new, still more threatening crisis to cower them into submission.) So climate activists – and all of us – beware... we need to be very alert to the way the merchants of the Great Reset will frame the narrative of the climate emergency -- and the measures needed to meet it – to their own self-serving purposes, and the detriment of the rest of us and all future life on Earth.

... Fortunately, the mass hypnosis induced by the Covid/Great Reset Agenda is beginning to break now, but it doesn't end with Covid: we must make sure we recognize, challenge and uproot it in all its dimensions – ecological, financial, political, social, as well as epidemiological. We must break the two-year spell of Stockholm Syndrome -- of blindly trusting our captors, those who have robbed us of our freedoms, health, well-being and, not least of all, powers of critical thinking – to return to our senses, reclaim the courage of our convictions, and decide what we want for our future.

People are now taking sides, in perhaps the greatest battle for our souls ever waged – human or transhuman; free and empowered, or enslaved – which

way do we want to go? We have to do our research and understand the choice-point we stand at. This is a turning point in our fate. If we do not consciously decide for ourselves, it will be decided for us. The stakes have never been higher.
