

The following pages copy the Foreward to the Green Acres Neighborhood Plan, derived from a series of five workshops with the city in late 2006, and formalized in January 2007.

Note that the photo of the Green Acres Neighborhood sign above — one of three to grace gateways to the neighborhood (a fourth was stolen, twice) — stands at the north end of Jefferson Street, just beyond the block with the five houses scheduled to be demolished.

Our sign project, made possible through a \$10,000 Neighborhood Improvement Grant after the 2007 Plan was enacted, was headed up by Katarina Koch (now the ED of Lotus), who at the time lived in my house, and several of her student friends who also lived in the neighborhood.
